

## OUR MISSION

The Friends of the Reserve (FOR) is a nonprofit organization dedicated to supporting the work of the North Carolina Coastal Reserve and National Estuarine Research Reserve and ten sites they protect. We are neighbors, families, visitors, students, and professionals. Our goal is to connect you to the natural wonder of these ten sites and engage you in helping to protect these places for generations to come.

## FOR-NC Internship Award

FOR also supports an undergraduate summer internship program to encourage promising and talented students from traditionally underserved and under-represented populations to pursue study and careers centered in coastal and estuarine sciences. Applications for the 2024 scholarship are now open and will be due January 19th, 2024 by 11:59 pm.
